## AN OVERVIEW OF THE ACTIVITIES

### Learning - A fun filled experience :

As children take their first steps at KenBridge, a whole new world begins to unfold. At school here, this excitement and energy is channeled towards positive growth of mind, body and personality.

### Self Enhancement :

Here children have an identity and sense of self. They are intelligent beings who understand their place in the world. They have the ability to learn through active exploration and interaction with concrete material, adults and peer group.

### Success :

At KenBridge School Kota, experiences are designed to stimulate learning in all areas - physical, social, emotional and intellectual. Children are taught basic skills through a need based curriculum designed by a committed, trained and experienced faculty. Multiple intelligence theory works as a tool through which children learn and relate to the concepts chosen for their overall personality development.

- Communication Skills
- Comprehensive Growth
- Community Consciousness

### ABOUT KENBRIDGE

KenBridge School imparts education using technology where children are encouraged to have a practical and joyful educational journey. This method of teaching, along with an integrated curriculum encourages students to become life-long learners. Learning beyond the realm of books also gives the student a head start. We believe in delivering quality education through technology enabled and activity based learning. Our trained staff ensures that your child is well prepared to face challenges in a global scenario while staying deep rooted to Indian values.

### Mission

- Encourage analytical, self-directed learning and creative application of knowledge.
- Actively promote teamwork, cooperation and effective communication.
- Create a humane and caring environment that caters to the development of a healthy self-esteem.
- Inculcate a sense of community service in our children and emphasize the importance of the moral aspects of life.
